

日本転倒予防学会誌

第8巻 第1号 2021年8月

目次

- 3 原著 入院時口腔ケア介助の必要性和入院中の転倒との関連～過去起点コホート研究～
古賀 秀信
- 15 原著 Ethical Influence of Fall Prevention Sensors on Older Adults, their Families, Nurses and Care Workers in long-term Care Facilities : A Cross-sectional Study Comparing Sensor Types or Experience of Healthcare Staff
Miho SHOGENJI
長期療養施設における高齢者とその家族、看護師と介護職への転倒予防センサによる倫理的な影響～センサの接続別種類および職種間で比較した横断研究～
正源寺 美穂
- 25 原著 認知障害高齢者における一般病院看護師の身体拘束の必要性認識の現状および拘束しない転倒予防の実施と影響要因についての多施設間横断研究
牧野 真弓
- 37 報告 三次元人体モデルを用いた後方転倒の床面衝突時における股関節の力学的応答分析
林 卓未

日本転倒予防学会

シンボルに込めた想い

ゆらいでも決して倒れない「起き上がりこぼし」をモチーフとして、しなやかな安定感と活力を表現しています。

ゆらぎの造形は美しく咲く花にも通じ、転倒予防で人生が明るく美しく花開く様相を象徴します。

シンメトリカルな安定感あるフォルムは、JSFPの組織的な強さと多様性をも表現しています。

Japanese Journal of Fall Prevention

Vol.8 No.1 August 2021

Contents

- 3 **Original** Relationship between the Need for Oral Care Assistance on Admission and Falls during Hospitalization : Retrospective Cohort Study
Hidenobu KOGA
- 15 **Original** Ethical Influence of Fall Prevention Sensors on Older Adults, their Families, Nurses and Care Workers in long-term Care Facilities : A Cross-sectional Study Comparing Sensor Types or Experience of Healthcare Staff
Miho SHOGENJI
- 25 **Original** A Multicenter Cross-sectional Study of General Hospital Nurses' Perceptions of the Need for Physical Restraint and the Implementation and Influencing Factors of Non-Restraint Fall Prevention in Elderly Patients with Cognitive Impairment
Mayumi MAKINO
- 37 **Report** Mechanical Response Analysis on The Hip Joint upon Collision with the Floor after a Backward Fall using a Three-Dimensional Human Body Model
Takumi HAYASHI

for Fall Prevention

What the Symbol Tells

The three overlapping patterns show the swaying movement of an *okiagari-koboshi*, a Japanese doll that rights itself whenever knocked over. The symbol represents resilience and stability that our society aspires for.

The patterns also show three petals of a blooming flower. We believe that life could be made better and more beautiful through our effort toward fall prevention.

The patterns also represent the structural strength and versatility of our society.
